

EMMANUEL W. WAKHONGOLA

IT Support & Systems | Data Analysis (Python, SQL, ML)

Nairobi, Kenya • +254 791 952 584 • wangilaemmanuel06@gmail.com • github.com/WangilaWakhongola

PROFESSIONAL SUMMARY

BSc. Mathematics and Computer Science graduate (JKUAT) with practical IT support experience troubleshooting end-user, network, and systems issues. Builds independent Python and SQL projects spanning data analysis and machine learning, including a finance-tracking tool and a bank-statement categorization assistant. Combines analytical thinking with hands-on technical troubleshooting, and is seeking entry-level opportunities in IT support, data analysis, or graduate technology programs.

TECHNICAL SKILLS

- 1. Programming:** Python, C++, SQL
- 2. Data & Analytics:** Data Analysis, R, Microsoft Excel
- 3. Machine Learning:** Applied ML concepts (see Projects)
- 4. IT & Systems:** Windows & Linux troubleshooting and support
- 5. Networking & Cybersecurity:** Networking principles, cybersecurity concepts
- 6. Tools:** Microsoft Office

PROFESSIONAL EXPERIENCE

IT Support — Attachment, TotalEnergies Marketing PLC

June 23 – September 5, 2025 | Nairobi, Kenya

1. Provided IT operations support, including troubleshooting PC and software issues for end users.
2. Assisted with network administration and system monitoring as part of the wider IT team.
3. Applied cybersecurity protocols as part of daily IT operations.

PROJECTS

ML-Powered Personal Finance Assistant | Python, Machine Learning

- Built a tool that analyzes spending from bank statements or manual entries to identify categories and monthly trends.
- Generates personalized budgeting recommendations based on the categorized data.

Easy Money Flow | Python

- Built a personal finance tracker, inspired by M-Pesa, that visualizes daily spending and money habits.
- Used charts and heatmaps to make budget flow easier to interpret.

Cybersecurity Threat Detection | Python, Machine Learning, Networking

- Built an ML-based system for detecting network threats and anomalies.

Inventory Management System | Python, SQL

- Built a command-line system with CRUD operations and a relational database design for tracking inventory.

EDUCATION

BSc. Mathematics and Computer Science — Jomo Kenyatta University of Agriculture and Technology (JKUAT)

Graduated: August 14, 2026

Kenya Certificate of Secondary Education (KCSE) — St. Mary's Kibabii Boys National School 2021

CERTIFICATIONS / TRAINING

1. Introduction to Power BI for Beginners — Simplilearn
2. Artificial Intelligence Part-Time Course — Moringa School (December 2025)
3. Introduction to Cybersecurity Awareness — HP LIFE
